## What we do.....

At Trout River Lumber, we have a goal to produce a consistent, high quality product in all of our flooring and patterns. Another way we obtain this is by running all of our quality raw material on precision, high speed moulders, which provide a superior, architectural, quality finish. This enables us to provide our customers with a consistent, superior manufactured product time after time.

# STORMGUARD II *plus*

- C&Btr Southern Pine
- Treated with MCQ\* (Micronized Copper Quat)
- KDAT (kiln dried after treatment)
- 0.25 pcf retention
- Available in 15/16 x 3 1/8 face (8-16 foot long)
- Primed with a high quality mildew resistant oilbased primer. Ready for field topcoat
- Better corrosion protection for exterior code-approved fasteners and hardware
- Approved for aluminum contact

*The porch has withstood the test of time as an icon of American architecture, adding comfort, distinction and value. Today's home designs incorporate the porch as a natural extension of the family's living space. Southern Pine flooring has enjoyed a long history in porch construction. The effects of moisture in contact with wood is a top concern when designing and building a porch. For more information on this subject please visit the Southern Pine Council Website*
